

Chairs -> Wall Hugger chair -> Royal Waterfall Back

WALLHUGGER CHAIR

A single motor mechanism that lifts and reclines. This mechanism only requires 4-5" of clearance behind the chair to recline.

Practicality and versatility combined with modern styling are the key features which make the Royal one of the most popular chairs on the market. Large supportive wings ensure the cushions are held in position while the three bolster cushions, each with its own zipped back, enable the users to create their own personalised configuration.

Weight	Seat Height	Seat Depth	Seat Width
0 - 18 Stones	18" - 21"	18" - 21"	18" - 22"
