

Chairs -> Dual motor chair -> Royal Waterfall Back

DUAL MOTOR CHAIR

This is a mechanism that operates using 2 motors. One motor operates the footrest of the chair and the other motor operates the back. This means that the footrest and back are operated independently enabling foot up and back up positioning if required.

Practicality and versatility combined with modern styling are the key features which make the Royal one of the most popular chairs on the market. Large supportive wings ensure the cushions are held in position while the three bolster cushions, each with its own zipped back, enable the users to create their own personalised configuration.

Weight	Seat Height	Seat Depth	Seat Width
0 - 18 Stones	18" - 21"	18" - 21"	18" - 22"
18 - 25 Stones	18.5" - 21"	18" - 21"	22" - 28"
25 - 35 Stones	18.5" - 21"	18" - 21"	22" - 28"
