

Beds -> Cromwell -> Pocket Sprung Mattress

CROMWELL

A traditional looking bed designed with practicality and a budget in mind. A single bed supported by four highly polished teak skittle legs, ideally suited for hoists and over-bed tables, giving an ample clearance of 6.5".

Manufactured using birch hardwood supporting rails and corner gussets, which give a strong but basic design. Complimented by our quality upholstery and your choice of mattress.

The Pocket sprung mattress has been manufactured with comfort and support in mind, with its individually pocketed springs designed to contour on an adjustable bed. Upholstered in a matching cream damask fabric with brass ventilators and side handles for ease of lifting and turning.
